sanitary fittings

Our company...

Is one of the leading and most successful German suppliers for Sanitary fittings and other related products. Since 1980, we have been supplying our markets with a wide range of faucets, fittings and valves for bathroom, kitchen and other sanitary installations. Our products are partly supplied under our "ALMANIT" and "GERMANIT ARMATUREN" brand names.

Our programme...

Includes a broad range of models covering most market segments from basic to luxury, and from classical to modern design. Private, commercial, or institutional customers will find the products they need in our programme. The most popular product groups in our extensive range cover:

+Faucets and Fittings: we supply a wide range of water mixers for bathroom and kitchen in different finishes and designs, with compression or ceramic valving (example: one hole lavatory and bidet mixers, one lever mixers, concealed 3-hole mixers, ...etc.). We have different mixer models for both wall and concealed installations. Most of our faucets/mixers can be supplied with different models of handles which are fitted according to customers demands. Also to secure our customers an extended product range from a single source, we supply Shower Fittings including hand shower sets, adjustable shower heads, shower arms, etc.

+Water Taps and Valves: we supply a variety of bib cocks in different finishes and designs (example: taps with and without hose-union, taps with T-handle, taps with upper part for key, ...etc.). We supply

also a wide range of Stopcocks, Ball valves, Gate valves, and Angle valves in different models and designs.

+Hoses and pipes: we supply a wide range of flexible hoses and tubes with different ends to adapt to any type of standard valves and fittings (example: brass strips hoses, PVC hoses, copper tubes, st. Steel-wire screened hoses, aluminium wire screened hoses, ...etc.).

+Other Product Lines: Sanitary fittings are the core of our business. We supply more than 5.000 products in numerous models and options. Products shown in our catalogue represents only our fast moving items. For additional information about other products, please send us your detailed inquiry so that we can offer accordingly.

Our Markets...

We can supply our products world wide. Our main markets are in

parts of Europe, in the Far-and Middle East area and in some parts of Africa.

Our Service...

More than 30 years of experience provided our management with thorough knowledge of products and markets at manufacturers as well as end-users side, enabling us to satisfy our customers requirements with ultimate precision and assisting the manufacturers to do the same. Also as a family run company, we attach great importance to personal relationships to our customers. This helps us to meet individual customer wishes quickly and unbureaucratically.
